Net assets with donor restrictions consist of assets whose use is limited by donor-imposed, time and / or purpose restrictions. The Organization reports gifts of cash and other assets as revenue with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time or purpose restriction is accomplished, the net assets are reclassified as net assets without donor restrictions.

Some net assets with donor restrictions include a stipulation that the assets provided be maintained permanently (perpetual in nature) while permitting the Organization to expend the income generated by the assets in accordance with the provisions of additional donor imposed stipulations or a Board approved spending policy. The Organization has not received any such permanently restricted donations and has no permanently restricted net assets at December 31, 2021.

East Metro Board of Realtors, Inc. neither made nor received any conditional contributions for 2021 as defined in ASC Update No. 2018-08.

#### Estimates

# NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2021

# 5. FAIR VALUE OF FINANCIAL INSTRUMENTS - INVESTMENTS:

The fair values of marketable securities are based on quoted market prices at year-end.

Generally accepted accounting principles define fair value, establish a framework for measuring fair value, and establish a fair value hierarchy that prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the assets or the liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure the fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Board has the ability to access.
- Level 2 inputs are inputs (other than quoted prices within level 1) that are observable for the asset or liability, either directly or indirectly.
- Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include management's own data.)

All investments owned by the East Metro Board of Realtors are Level 1 inputs.

# 6. <u>NET ASSETS WITHOUT DONOR RESTRICTIONS:</u>

Net assets (deficit) as of December 31, 2021 are \$(16,796.80). All were undesignated.

# 7. LIQUIDITY AND AVAILABILITY OF RESOURCES:

The Organization manages its financial assets to be available as its operating expenditures, liabilities and any other obligations come due. The Organization's financial assets available at December 31, 2021 to meet cash needs for general expenditures within one year of the statement of financial position date are as follows:
